

# Farmworks

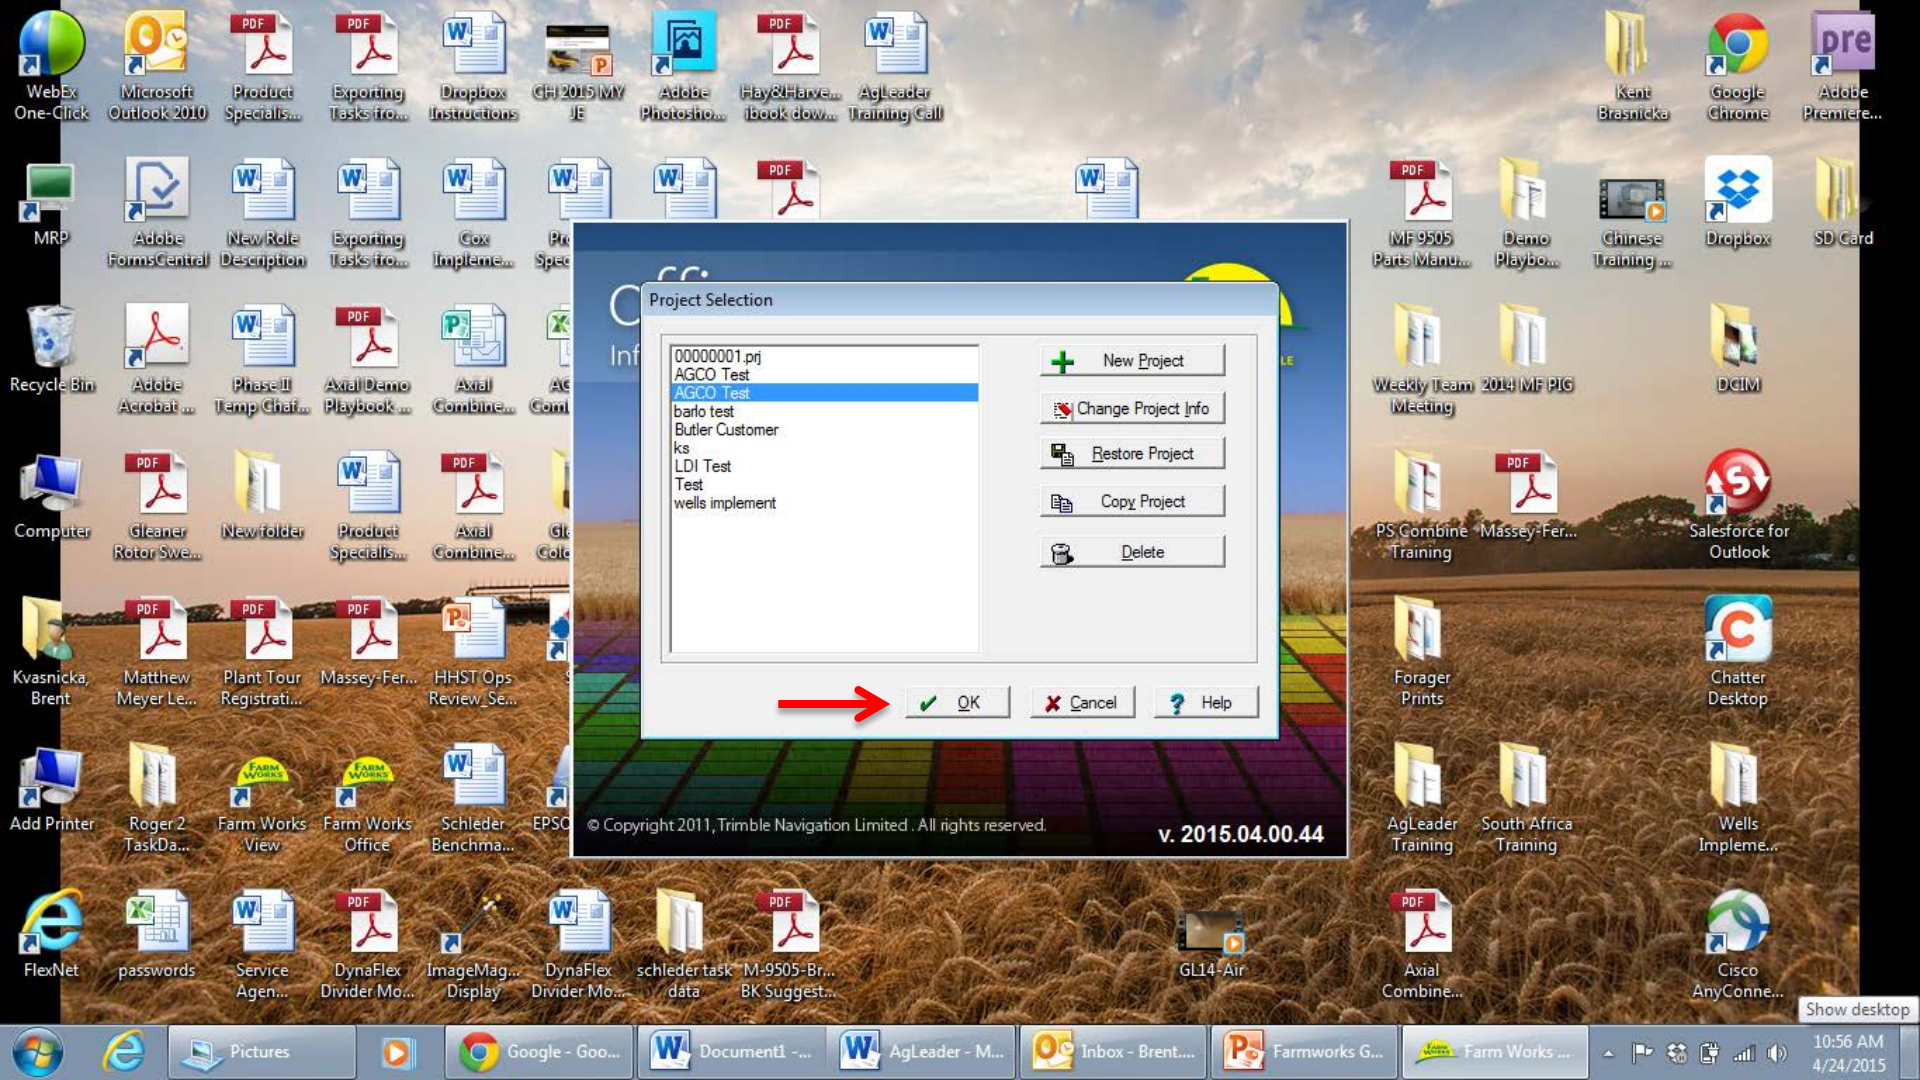

How to import yield data from combine  
C2100 into Farmworks software

- **Locate the “Farm Works View” icon and double click it**

- **Ensure your Project is highlighted, then press “OK”**
- **For this example we will select “AGCO Test”**

1:37 PM 5/1/2015

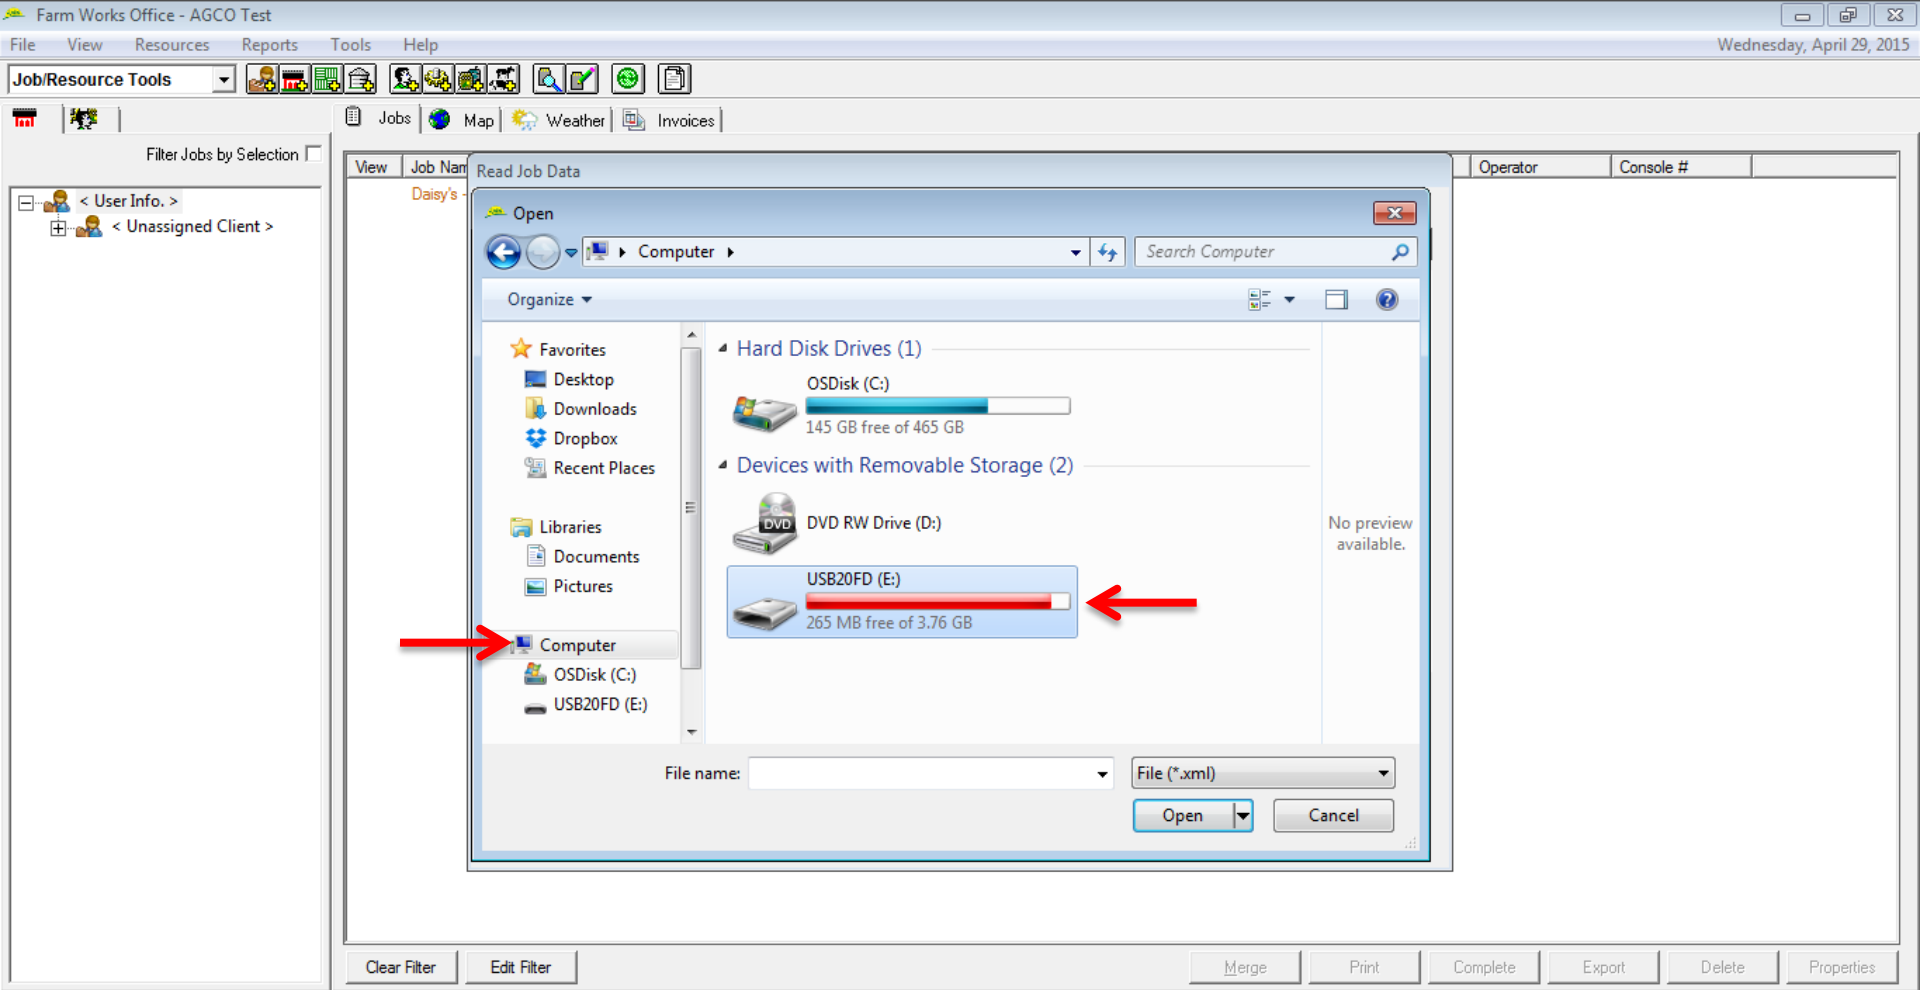

- ***Insert your USB drive containing your combine yield information into your computer***
- ***Click the "Read Job Data" icon at the top of the page***

- ***Under the AGCO Task Controller tab, select “File (\*.xml)”***
- ***Next, Browse for your removable disk in the search bar***

- ***Navigate to “Computer” and double click the “USB Removable Disk”***

- **Locate the file labeled “TASKDATA” and highlight it**

- **Press “Open”** 

- **Be patient and allow all the data to load into Farmworks as this may take some time**

- **Check the box to use the filter and press "OK" to continue**

- **All the tasks from your combine monitor will load into the system**
- **In this case we have two separate tasks for the same field, so we will merge these two files together (highlighted blue)**
- **Left click on one of the fields, then hold control on the keyboard and left click the additional field. Both fields should highlight blue as shown above.**
- **Click "Merge" to combine the two fields**

Clear Filter Edit Filter Merge Print Complete Export Delete Properties

- **To view the yield map, check the box next to the job you would like to view**
- **Press the “Map” tab towards the top of the page**

- **Click on the “Dry Yield” option to view the variations in the yield on the map**
- **Notice the legend to the right correlating a bu/ac yield to each color on the map**
- **To “smooth” the map and make it look more presentable, we will add a new view**
  - **Highlight “Dry Yield” and press the “Add View” icon**

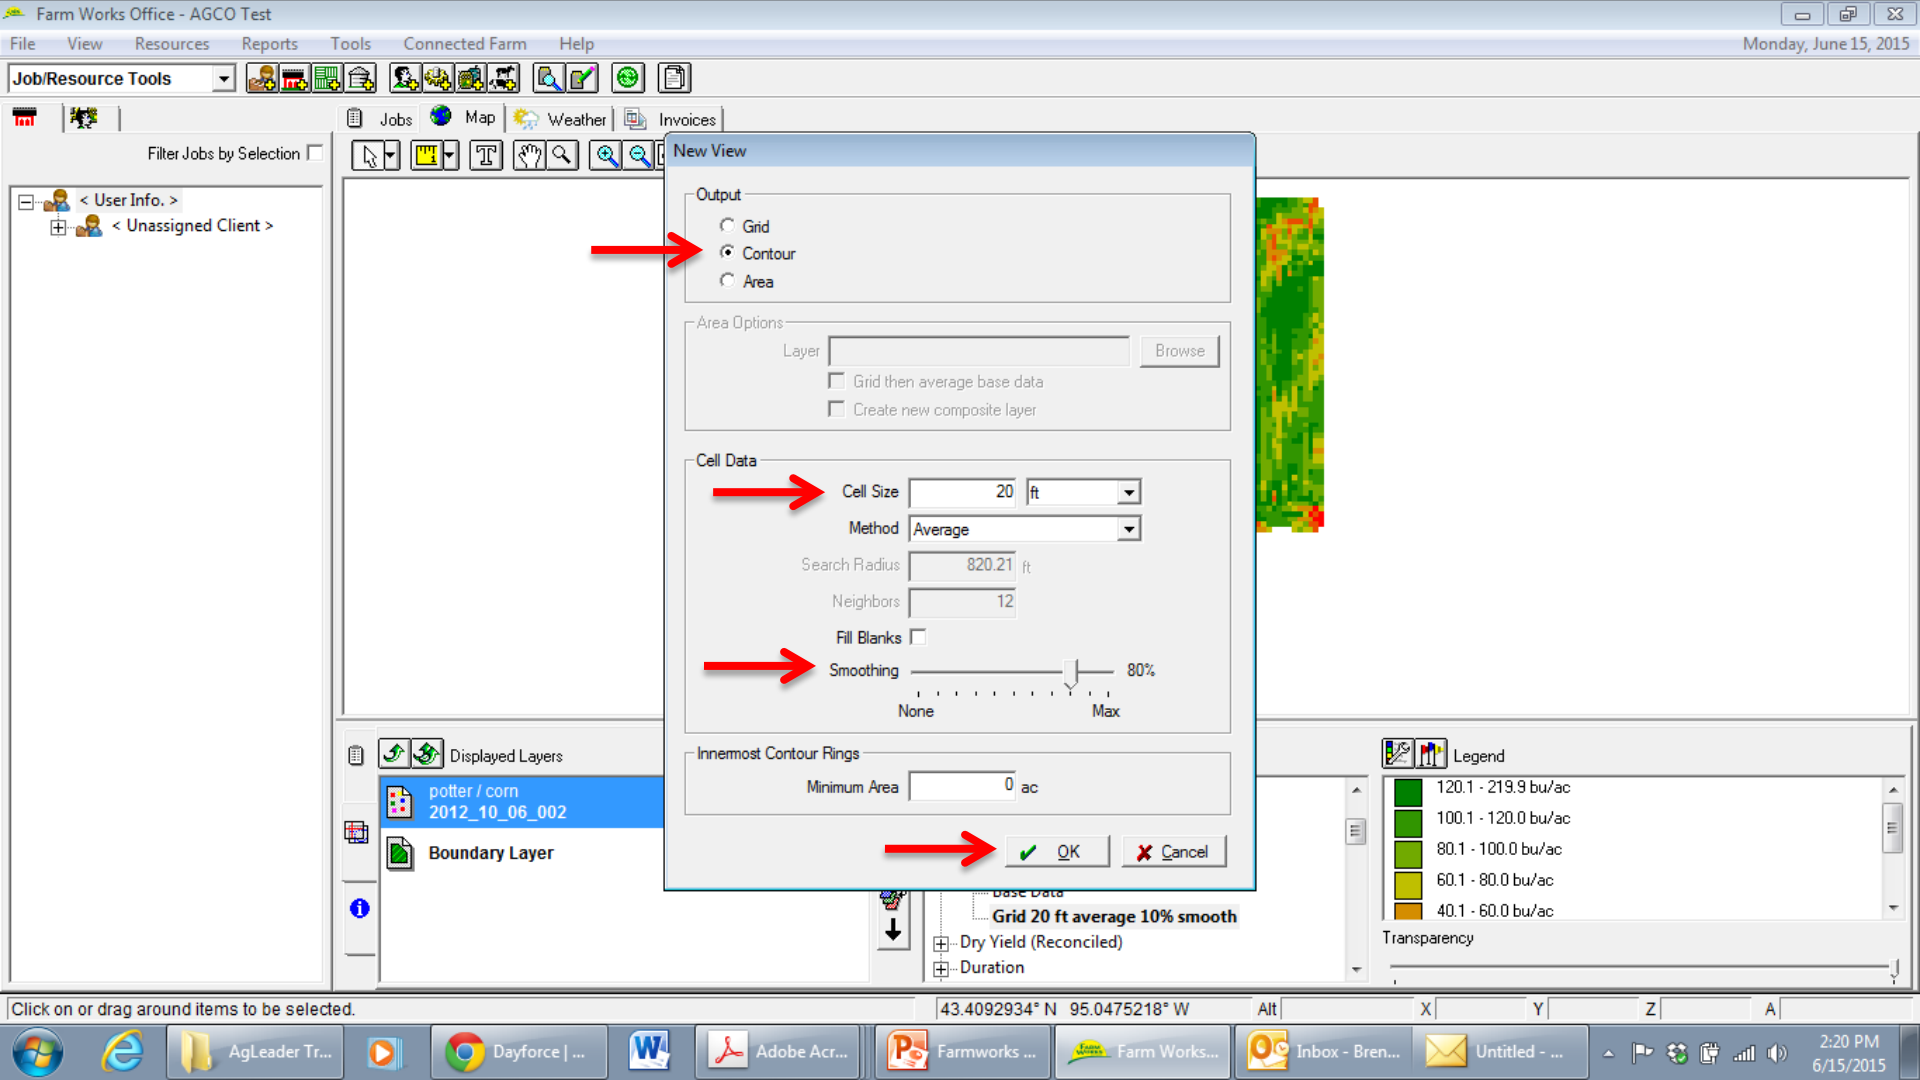

- ***First we will create a grid view by selecting the “Grid” box at the top of the window***
- ***We will utilize a 20 ft cell size since this was the size of the header used to harvest the crop***
- ***Next, we will select 10% smoothing***
- ***Press “OK”*** 

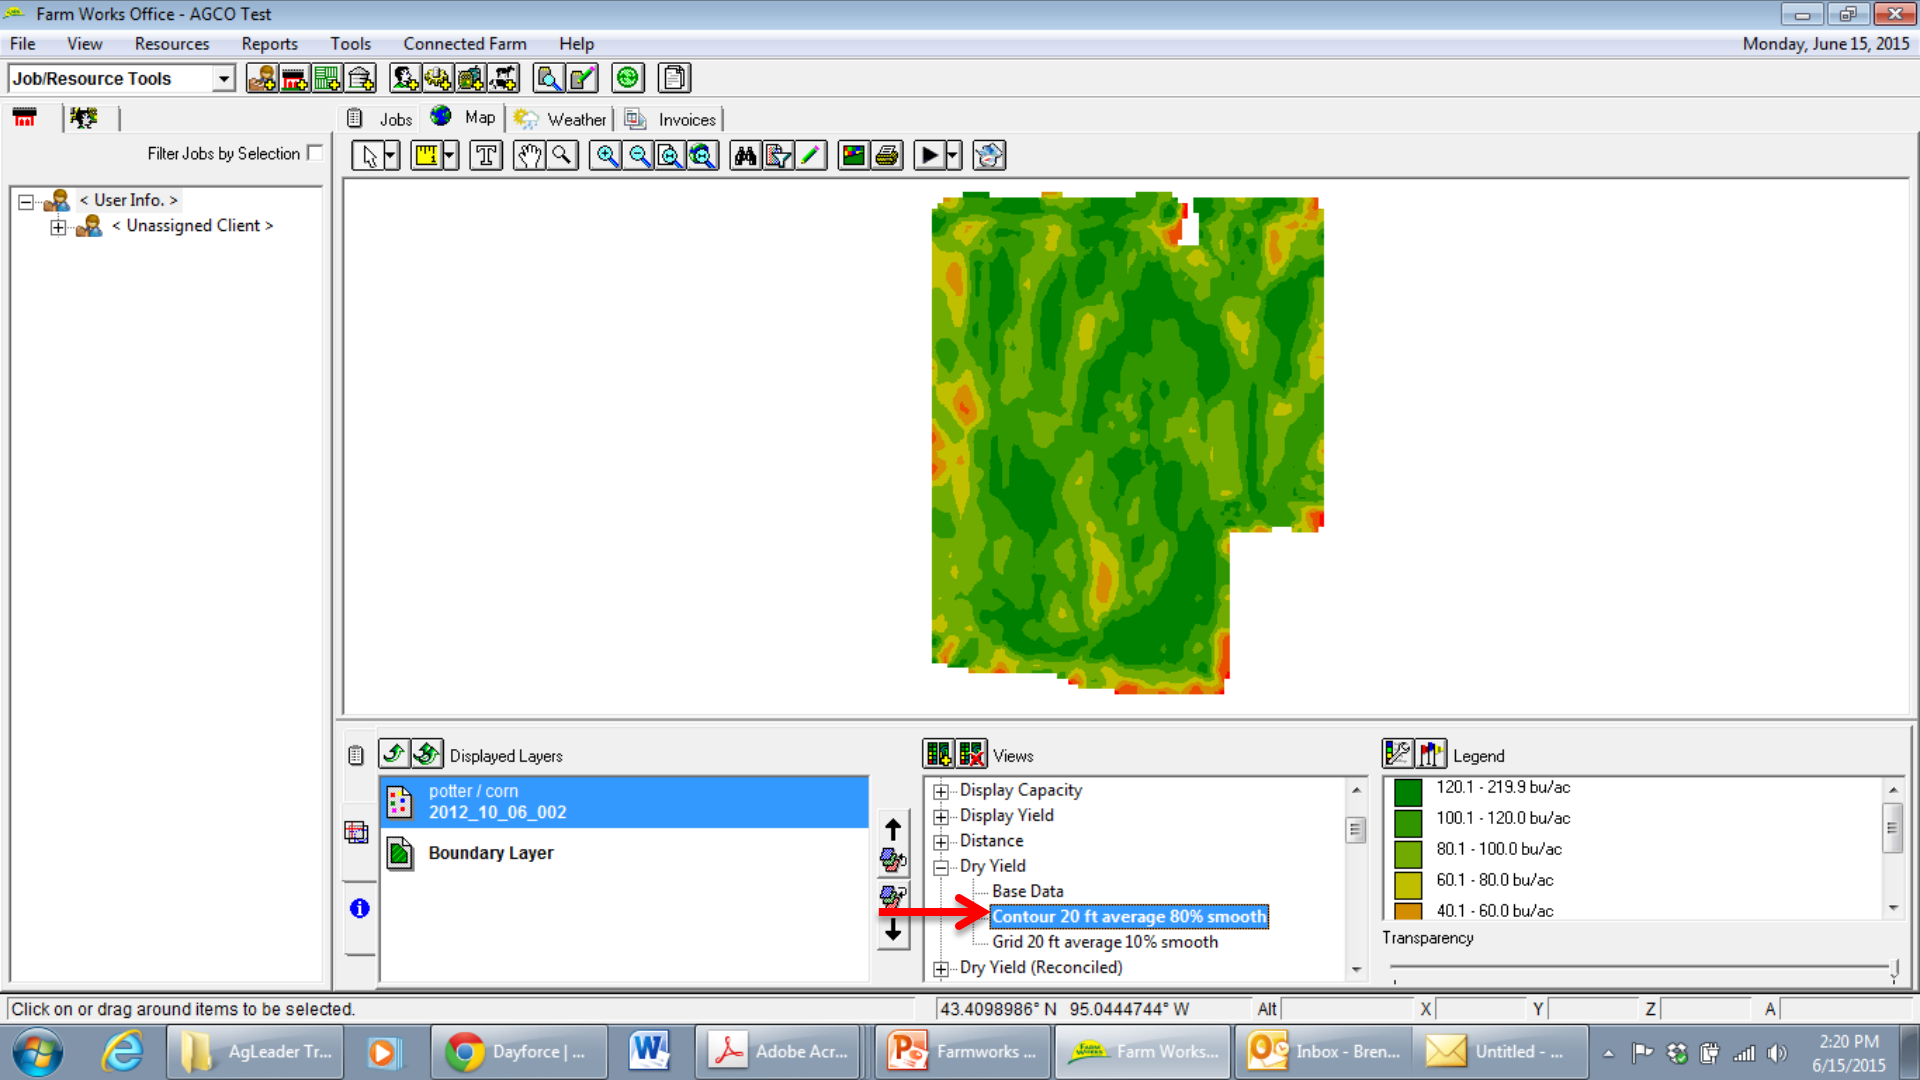

- ***Under the “Dry Yield” tab dropdown the new view will appear***
- ***Next, we will make an additional view with contour selected as the output***
- ***Select the “Add View” tab*** 

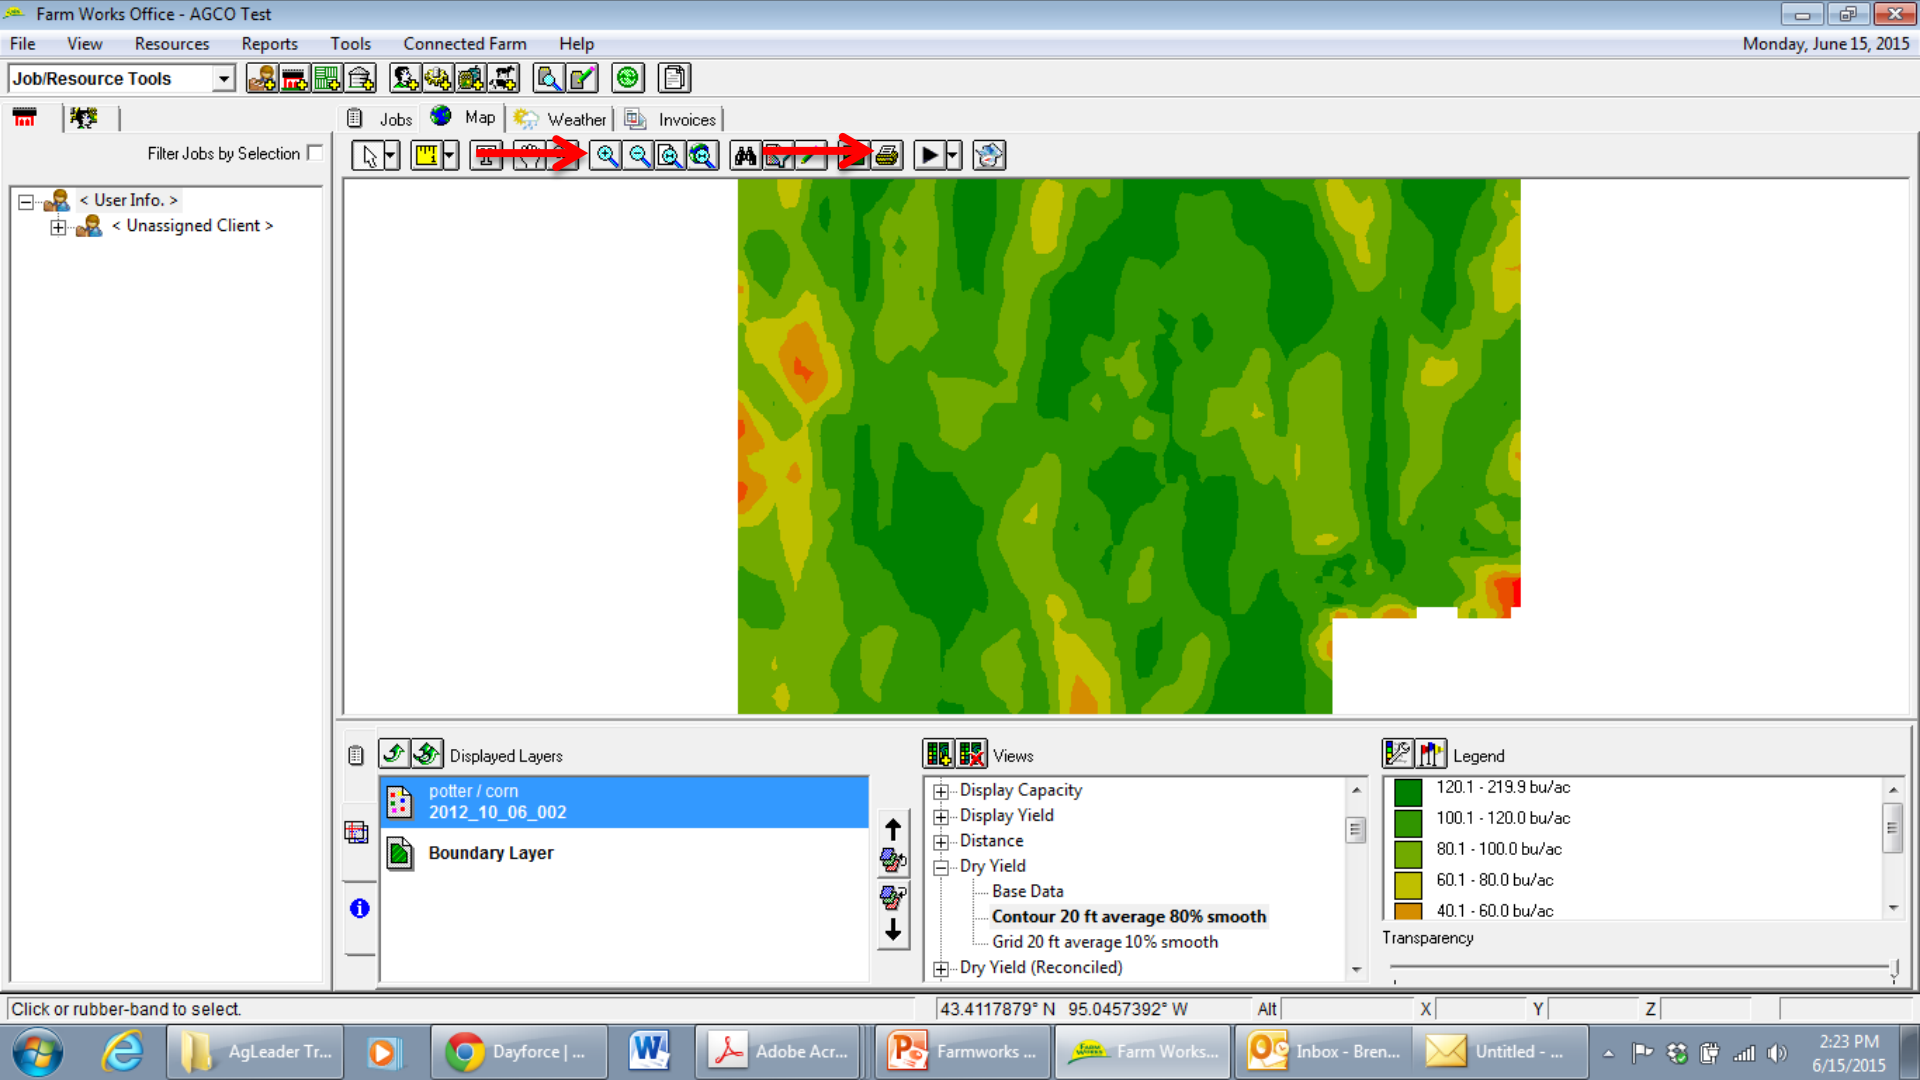

- **Select “Contour” at the top of the window**
- **Input 20 ft for the cell size**
- **80% smoothing**
- **Press “OK”** 

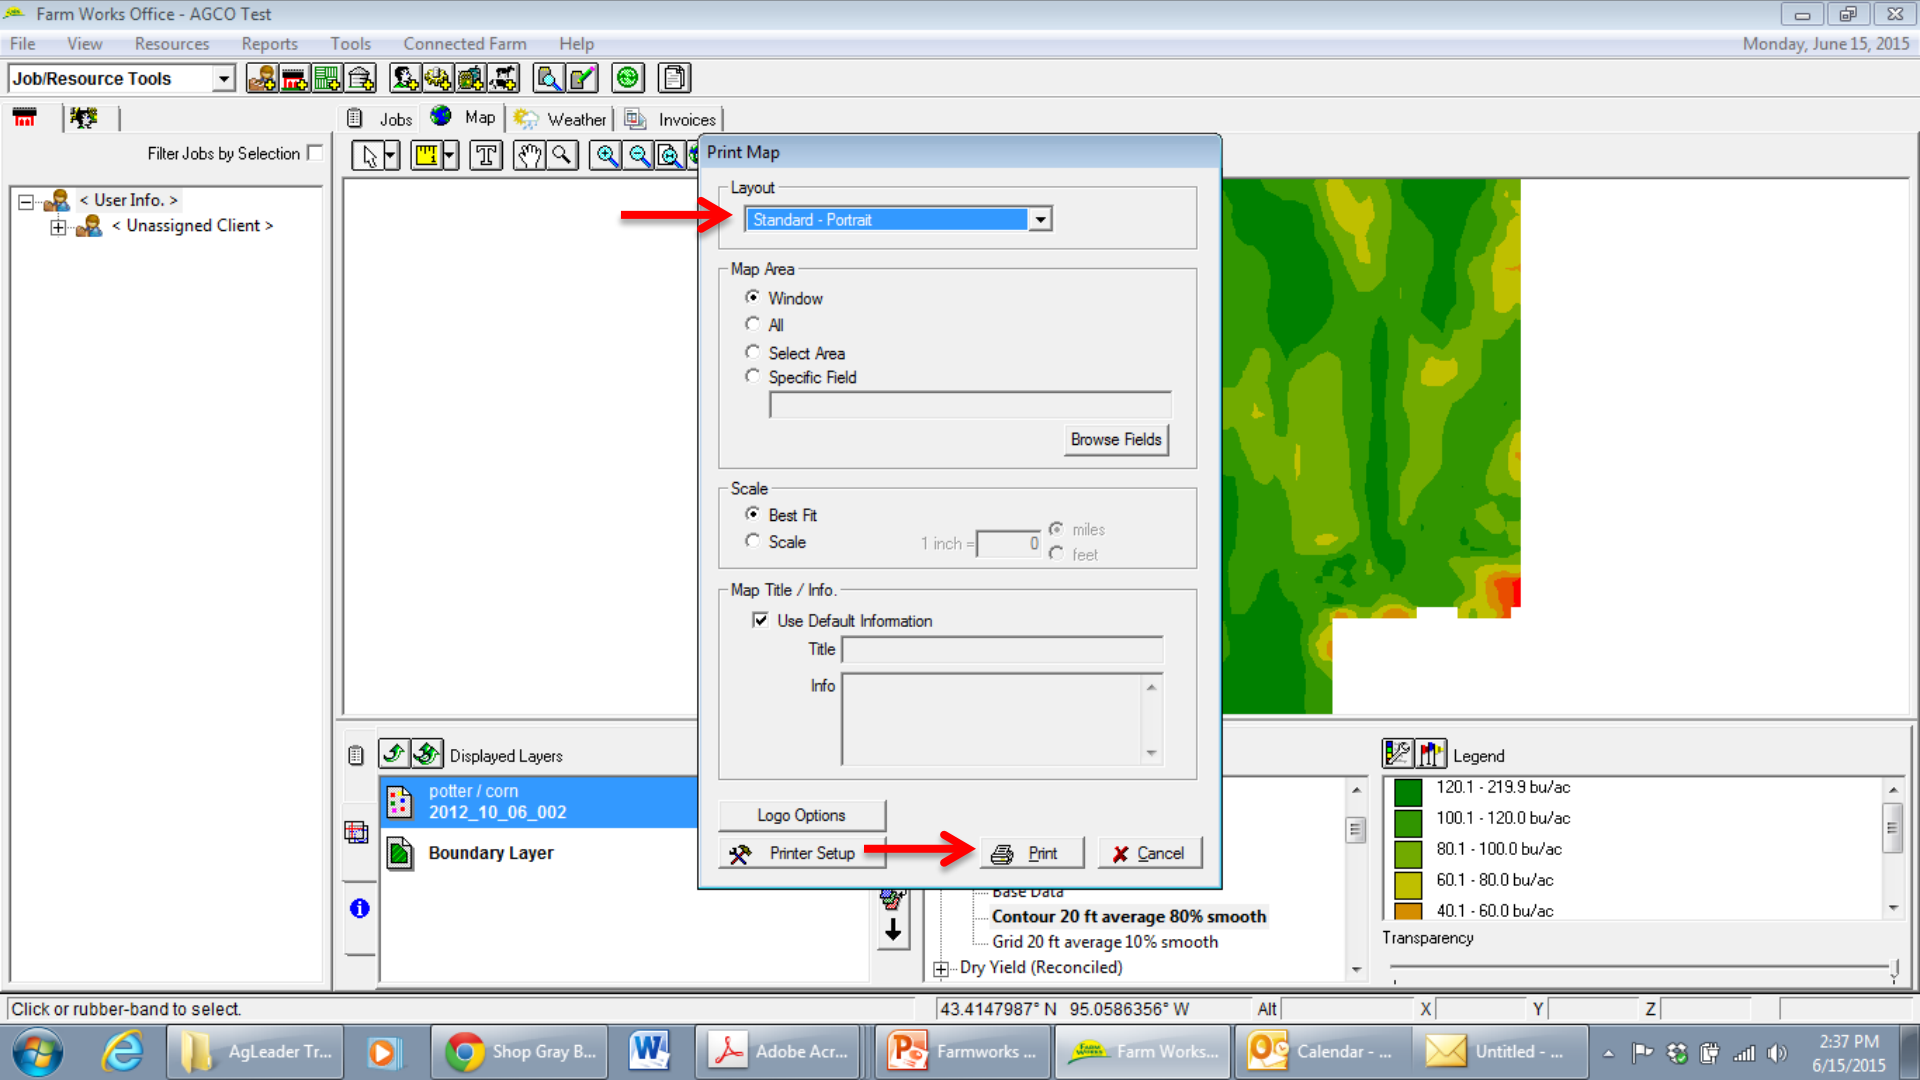

- ***The contour view will appear in the “Dry Yield” tab dropdown***
- ***Next, we will print a field summary report***

- **Zoom in on the map by pressing the “magnifying glass with a plus sign” one time**
- **Press the “Map Report” icon**

- **Choose your desired layout at the top of the window**
- **Press "Print" to generate the map report**

- **Completed map report of 2012 corn field**
